10 Primary Functional Requirements for the app “CityScape” from LAB 01

1. Tourist Assistance and Day Planner:
A comprehensive guide service for tourists, offering day planning assistance and highlighting key attractions, services, and events in Gazipur.

- 1-day, 2-day planner to navigate the attractions of Gazipur.
- Availability of guides for tourists.

2. Integrated Transportation System:
Seamless access to the city's transportation network, helping residents and visitors in navigating Gazipur efficiently.

- Integration with map to get the accurate ETA.

3. Interactive Utility Map:
An intuitive map interface displaying essential utilities and services based on user request, enhancing accessibility.

- Users can find nearby hospitals, restaurants and administrative offices.

4. Community Hub for Feedback:
A centralized platform encouraging community engagement through positive and negative feedback, fostering a participatory environment.

- Users can post feedbacks on particular topic
- Relevant officials and admins are to address those

5. Dynamic News Portal:
Real-time updates on current happenings, announcements, and relevant news, ensuring residents stay informed about local developments and important news.

- Updated news of current happenings in Gazipur
- Announcements for municipalities and govt.

6. Emergency Alerts and Services:
Instant notifications for emergency situations like natural disasters and access to emergency services, prioritizing the safety and well-being of Gazipur's residents and visitors.

- Users can avail emergency services like medical and fire services
- Users are to be notified in case of any emergency

7. Comprehensive Event Calendar:
A centralized calendar showcasing city events, festivals, and activities, promoting community involvement and cultural participation.

8. Efficient Booking Services:
Streamlined booking options for various services, accommodation, transportations, facilitating easy access and reservations for events, facilities, and local businesses.

- Unified payment gateway to avail hotel accommodations, transportations etc.

9. Multilingual Support:
Inclusive language support to accommodate the diverse linguistic needs of Gazipur's population and make communication easy for international visitors.

- Users can toggle between languages (Bengali, English, French, etc.)

10. Government Services Access:
Direct access to essential government services, a proper manual for simplifying administrative processes for residents and ensuring efficient governance.

- Users can get information assistance from the government. Services like NID, Passport, DL etc.
