SWE 4790
Internship Task Logbook

TiCON System Ltd

Name : **Antara Arifa Mullick**
Student ID : 210042132
Department : Computer Science and Engineering
Program : B.Sc. in Software Engineering

Week	Task Summary	Progress	Signature of mentor	Signature of student
1	Market research and wireframe designs for learners, instructors, and admins	Complete		Antara
2	Completed remaining wireframes and designed UI elements for Authentication, Landing Page, About Us, Contact Us, All Courses, and Course Details	Complete		Antara
3	Developed Navbar, Footer components, Hero and CTA sections of landing page, Featured Courses, Categories, Testimonials, How It Works, All Courses page with dynamic filters, search functionality, Course Details, and Course Player page	Complete		Antara
4	Developed Course player Quizzes tab, Quiz page, Reviews tab, Certificate tab, and cart components. Added categories in courses, made category dropdown, prepared quiz, courses, and reviews data. Developed billing, shipping pages, and the dummy payment process, along with wishlist component and timer in quiz page.	Complete		Antara
5	Developed profile page with community edit functionality, learning page, learners dashboard, settings page, and AI assistance feature. Enhanced the UI for various pages and made all pages responsive.	Complete		Antara
6	Modularized all learner pages into reusable components, developed the User Management, Instructor Verification, Suspend User, and Policy Management pages for admin role, along with all necessary components.	Complete		Antara
7	Developed the FAQ Management, Course Management, Category Management, User Report, and Financial Report pages for admin role, along with all necessary components.	Complete		Antara
8	Developed the History page for the admin with all required components. Performed multiple days of data entry work for the CEO's school reunion website.	Complete		Antara
9	Deployed the website on Vercel, resolved Next.js and TypeScript errors, cleaned the codebase, implemented supervisor-suggested fixes, updated UI accordingly, and fixed admin-side UI issues.	Complete		Antara
10	Added "No Course Found" cards where necessary, enhanced the UI of all course player tabs, updated sorting and filtering options as per supervisor suggestions, and removed unnecessary code and data.	Complete		Antara
11	Made all pages fully responsive, tested learner-side pages, tested remaining learner features, and tested admin-side pages to ensure proper functionality and stability.	Complete		Antara
12	Fixed issues identified during learner-side and admin-side testing, resolved reported errors, and brainstormed and researched ideas for a new project.	Complete		Antara

13	Analyzed features of the new project and prepared a detailed requirement analysis document. Developed Landing, Sign Up, Sign In, About, and Contact pages. Built half of the Mock Test page and integrated backend Authentication and Contact APIs. Developed the Mock Test, Exam page and Result page with required components.	Complete		Antara
14	Learned the basics of UI, Functional, API, Integration, Sanity, and Security Testing. Started and completed UI and API Testing for the landing page, authentication, navbar, and footer of the client project GPDI.	Complete		Antara
15	Started Functional Testing for the client project GPDI. Continued with the Functional Testing of the client project GPDI. Started and completed API Testing for the client project GPDI. Prepared all the question sets individually and combined them into a CSV for backend integration.	Complete		Antara
16	Developed the Analytics page with its necessary components. Developed the Profile page with the option to edit profiles and fixed errors. Integrated the backend Exam and Result APIs with the frontend. Integrated the backend Score Evaluation and History APIs with the frontend. Integrated the backend AI-related Analytics page API with the frontend.	Complete		Antara
17	Developed the Overview and Contact Messages pages, the Users page and integrated the Users Overview, Contact, and User API with the frontend. Developed two tabs of the Question Bank page and integrated the Question Bank API with the frontend. Developed the Study Tips page and the FAQ page for the student role.	Complete		Antara
18	Developed the Study Tips and FAQ pages for the admin role and integrated the backend API with the frontend.Deployed the website, tested the frontend, and fixed all the build and minor errors and ensured the website was fully functional and error-free	Complete		Antara

Date	Log
10/12/2025	We got assigned to an Online LMS Project. We did our market research for the project
10/13/2025	We analysed the features in details and made a document
10/14/2025	Designed the learners wireframes
10/15/2025	Designed the instructors wireframes
10/16/2025	Designed the admins wireframes

Date	Log
10/19/2025	Completed the remaining wireframes
10/20/2025	Ui design of Authentication, Landing Page
10/21/2025	Ui design of Landing Page, About Us
10/22/2025	Ui design of Contact Us, All Courses
10/23/2025	Ui design of All Courses, Course Details

Date	Log
10/26/2025	Develop Navbar, Footer components, Hero and CTA sections of landing page
10/27/2025	Develop Featured Courses, Categories, Testimonials, How It Works and completed landing page
10/28/2025	Develop All Courses page with dynamic filters and sorting, create routes for courses page
10/29/2025	Implemented Search Functionality, Developed Course Details page, Prepared course data
10/30/2025	Developed Course Player page, It's Resources Tab

Date	Log
11/02/2025	Developed Course player Quizzes tab, Quiz page, Prepared quiz data
11/03/2025	Developed Course player Reviews tab, Enhanced the UI of Quiz page, Prepared reviews data
11/04/2025	Developed Course player Certificate tab, Added categories in the courses, made category dropdown, added courses data and new reviews data
11/05/2025	Developed cart components, billing and shipping page, added new quizzes data
11/06/2025	Developed the dummy payment process, wishlist component, wishlist page, added timer in quiz page

Date	Log
11/09/2025	Developed profile page, profile edit functionality, developed the community page and prepared the data
11/10/2025	Developed my learning page, learners dashboard in profile and the settings page
11/11/2025	Enhanced the UI for certain pages, Developed the ai assistance thingy
11/12/2025	Minor enhancements that supervisor suggested to make
11/13/2025	Made all the pages responsive, enhanced the UI of some pages

Date	Log
11/16/2025	Modularized all pages of learner into logical reusable components to make it better
11/17/2025	Developed the User Management page for the admin and all the necessary components
11/18/2025	Developed the Instructor Verification page for the admin and all the necessary components
11/19/2025	Developed the Suspend User page for the admin and all the necessary components
11/20/2025	Developed the Policy Management page for the admin and all the necessary components

Date	Log
11/23/2025	Developed the FAQ Management page for the admin and all the necessary components
11/24/2025	Developed the Course Management page for the admin and all the necessary components
11/25/2025	Developed the Category Management page for the admin and all the necessary components
11/26/2025	Developed the User Report page for the admin and all the necessary components
11/27/2025	Developed the Financial Report page for the admin and all the necessary components

Date	Log
11/30/2025	Developed the Chatbot History page for the admin and all the necessary components
12/1/2025	Data Entry Work for CEO's school reunion in a website
12/2/2025	Data Entry Work for CEO's school reunion in a website
12/3/2025	More Data Entry Work for CEO's school reunion in a website
12/4/2025	More Data Entry Work for CEO's school reunion in a website

Date	Log
12/7/2025	Deployed the website in vercel solving all the errors of nextjs and typescript
12/8/2025	Removed unnecessary codes from codebase to make it clean
12/9/2025	Made the fixations suggested by our supervisor and changed UI accordingly
12/10/2025	Added things suggested by our supervisor and fixed minor errors
12/11/2025	Fixed the UI for admin side pages

Date	Log
12/14/2025	Added No course found card in pages where necessary
12/15/2025	Enhanced the UI of All Course player tabs
12/16/2025	Holiday
12/17/2025	Changed the sort and filter options like supervisor suggested
12/18/2025	Removed unnecessary codes and datas

Date	Log
12/21/2025	made all the pages responsive
12/22/2025	tested the learners side pages
12/23/2025	tested the remaining learner side pages
12/24/2025	tested the admin side pages
12/25/2025	Holiday

Date	Log
12/28/2025	fixed things that were found with errors while learner testing
12/29/2025	fixed things that were found with errors while learner testing
12/30/2025	fixed things that were found with errors while admin testing
12/31/2025	Holiday
1/1/2026	Brainstormed and researched ideas for our new project.

Date	Log
1/4/2026	We analysed the features of our new project in details and made a requirement analysis document and started working on that project
1/5/2026	Developed the Landing page and the Sign Up page with its necessary components
1/6/2026	Developed the Sign In page and About page with its necessary components
1/7/2026	Developed the Contact page and half of Mock Test page and integrated the backend Auth API and Contact API with the frontend pages.
1/8/2026	Developed the Mock Test page, Exam page and Result page with its necessary components

Date	Log
1/11/2026	Learned the basics of UI Testing, Functional Testing
1/12/2026	Learned the basics of API Testing, Integration Testing
1/13/2026	Learned the basics of Sanity Testing, Security Testing
1/14/2026	Started UI Testing of the client project GPDI
1/15/2026	UI Testing of the client project GPDI

Date	Log
1/18/2026	Started Functional Testing of the client project GPDI
1/19/2026	Functional Testing of the client project GPDI
1/20/2026	Started API Testing of the client project GPDI
1/21/2026	API Testing of the client project GPDI
1/22/2026	Prepared all the question sets individually and combined in csv for backend

Date	Log
1/25/2026	Developed the Analytics page with its necessary components
1/26/2026	Developed the Profile page with edit profile option and fixed errors
1/27/2026	Integrated all the backend Exam and Result API with frontend
1/28/2026	Integrated all the backend Score Evaluation and History API with frontend
1/29/2026	Integrated all the backend AI related Analytics page API with frontend

Date	Log
2/1/2026	Developed Overview and Contact Messages page with its components
2/2/2026	Developed Users page and integrated overview, contact and user API with frontend
2/3/2026	Developed two tabs of Question bank page with its components and Integrated Question bank API with frontend
2/4/2026	Holiday
2/5/2026	Developed Study tips page and FAQ page for student role with its components

Date	Log
2/8/2026	Develop Study tips page and FAQ page for admin role with its components and integrated backend API with the frontend
2/9/2026	Deployed the website, tested the frontend and fixed all the build errors and minor errors
2/10/2026	Tested the whole website and fixed all the errors found
2/11/2026	Holiday
2/12/2026	Holiday
